

The procedural steps for the official P.R.E Stud Book INSCRIPTION of Foals in the United States and Canada as mandated by the Spanish Ministry of Agriculture through LG-ANCCE are as follows:

### **Step 1. Breeder Code**

The Inscription service Applicant/Foal Owner must be in the possession of a valid Breeder code issued by the Spanish Stud Book as managed by the Spanish Ministry of Defense ( Cria Caballar ) and the Spanish Ministry of Agriculture ( LG-ANCCE ). An Owner code may not request Stud Book services.

### **Step 2. Complete an International Application for Service**

This one page document (in English & Spanish) can be located in the USPRE website at:

<http://usprea.com/pre-horse/2009/07/15/ancce-lg-stud-book-service-forms/>

This service application lists all the various services that Breeders can request for P.R.E. horses that are recorded in the LG Stud Book in their names at the moment of application submission.

The application for Inscription must be completed and submitted by the foal Owner, who, should he/she not coincide with the name of the broodmare Owner, must provide valid proof of ownership of the foal being registered, plus the original Breeding Certificate, which should have been supplied at the time of the purchase. The Breeder name appearing in the documents and on the Inscription will be the Owner of the broodmare at the time of birth.

When completing the International Application for Service, it is extremely critical that Breeders fill in ALL of the sections without exception. The Service Code for Inscriptions is 103 .

### **Step 3. Mailing the International Application for Service**

Send the completed Inscription documents to the LG-ANCCE Stud Book affiliate office in Wellington, Florida . Please note that you must send all the correct and complete information relating to the Inscriptions that have been request to the Stud Book processing center. In other words you will send us the originals of the Correctly completed applications for service, together with a photocopy of each breeding certificate to the following address:

USPRE  
11360 Fortune Circle, E5  
Wellington, FL 33414

An Inscription Packet including microchip and blood cards will be expedited by USPS mail within seven (7) working days of receipt of a properly completed Inscription Application and service payment. Please refer to the following list for Authorized Veterinarians & Administrators:

<http://usprea.com/pre-horse/2008/08/13/us-inscription-administrators/>

### **Step 4. Inscription Service Payment**

Service payments are made in US dollars through the USPRE website. Simply click on the "LG Service USPRE " stamp located on the homepage or go to:

<http://usprea.com/products-page/>
